Factory 19 Dennis Glover 2020-11-03 We're told that the future will be brighter. But what if human happiness really lies in the past? Hobart, 2022: a city with a declining population, in the grip of a dark recession. A rusty ship sails into the harbour and begins to unload its cargo on the site of the once famous but now abandoned Gallery of Future Art, known to the world as GoFA. One day the city's residents are awoken by a high-pitched sound no one has heard for two generations: a factory whistle. GoFA's owner, world-famous billionaire Dundas Faussett, is creating his most ambitious installation yet. He's going to defeat technology's dominance over our lives by establishing a new Year Zero: 1948. Those whose jobs have been destroyed by Amazon and Uber and Airbnb are invited to fight back in the only way that can possibly succeed: by living as if the internet had never been invented. The hold of Bezos, Musk, Zuckerberg and their ilk starts to loosen as the revolutionary example of Factory 19 spreads. Can nostalgia really defeat the future? Can the little people win back the world? We are about to find out. 'Like Orwell, of whom he has written so brilliantly, Dennis Glover's work is charged with courage, intelligence and purpose. He is the complete writer, and one made for our times.' -Don Watson 'Savagely hilarious and unlike anything else you'll read this year. It boils with the anger of the present moment.' -Rohan Wilson **Films and Other Materials for Projection** Library of Congress 1977

The Yugo Jason Vuic 2011-03-01 Six months after its American introduction in 1985, the Yugo was a punch line; within a year, it was a staple of late-night comedy. By 2000, NPR's Car Talk declared it "the worst car of the millennium." And for most Americans that's where the story begins and ends. Hardly. The short, unhappy life of the car, the men who built it, the men who imported it, and the decade that embraced and discarded it is rollicking and astounding, and one of the greatest untold business-cum-morality tales of the 1980s. Mix one rabid entrepreneur, several thousand "good" communists, a willing U.S. State Department, the shortsighted Detroit auto industry, and improvident bankers, shake vigorously, and you've got *The Yugo: The Rise and Fall of the Worst Car in History*. Brilliantly re-creating the amazing confluence of events that produced the Yugo, Yugoslav expert Jason Vuic uproariously tells the story of the car that became an international joke: The American CEO who happens upon a Yugo right when his company needs to find a new import or go under. A State Department eager to aid Yugoslavia's nonaligned communist government. Zastava Automobiles, which overhauls its factory to produce an American-ready Yugo in six months. And a hole left by

Detroit in the cheap subcompact market that creates a race to the bottom that leaves the Yugo . . . at the bottom.

Quattro Jeremy Walton 2020-09-15 The word 'Quattro', chosen by Audi for its pioneering high-performance four-wheel-drive cars, immediately captures glamour and excitement in the minds of all motorsport enthusiasts. This book, written by a leading journalist and Quattro devotee, explores 24 years of factory-prepared and factory-supported Quattros in motorsport, from 1980 to 2004. It is a tale that extends from rough rally stages to race tracks, from pine-fringed ice trails in the depths of European winters to the shimmering heat haze and melting asphalt of Texas street racing. Along the way, it explains how Quattros collected four world rally championships, five American driver/manufacturer crowns and a single-year haul of seven international touring car titles, plus numerous other honours. With the five-cylinder turbocharged Quattro in its original form, rallying in the early years yielded numerous wins, most of all in 1982, when seven victories in 11 world championship rallies brought the first title. With the short-wheelbase Sport added to Audi's armoury, 1984 became an all-action, all-conquering rallying season with two more world titles won, for drivers (Stig Blomqvist) and manufacturers. Three stunning Pike's Peak wins were achieved in America in successive years, for Michele Mouton (1985), Bobby Unser (1986) and Walter Röhrl (1987). Starting with double championships for the 200 quattro in TransAm (1988) and the 90 Quattro in IMSA (1989), racing success unfolded in America. Exuberant Hans Stuck was the star driver, but consistent team-mate Hurley Haywood captured that 1988 title. Touring car campaigns during the 1990s brought huge success, starting with fearsome V8 Quattro 'racing limos' in Germany. Global achievements followed with A4 Quattros in many national Super Touring series throughout Europe and in Australia, including Frank Biela's 1996 title-winning campaign in Britain. Audi continued to win on track in the new millennium as race versions of the S4 and RS6 captured five SCCA GT Championship titles in America.

Scrappy Terri L. Sjodin 2016 For those times when hard work and persistence just aren't enough, Terri Sjodin offers an inspiring guide to getting scrappy and beating the odds. Terri Sjodin loves scrappy people -- those who beat the odds with a blend of cleverness and fighting spirit. People who see big problems and come up with big solutions. People like the clever Girl Scout who sold 117 boxes of cookies in two hours outside a medical marijuana dispensary, or the entrepreneur who turned his home into an indoor jungle to sell investors on the Rainforest Cafe Restaurant chain. It can seem like these successes are just one-off acts of ingenuity or isolated flashes of brilliance. But today it takes more than just creativity, more than just persistence, more than just a dream to reach big goals -- it takes a mindset and a strategy. Sjodin explains the common elements behind every successful scrappy effort.

Patina Volkswagens Mark Walker 2022-01-07 Since the early 2000s, the apparent explosion of interest in Volkswagens with original paint, rust and patina has inspired a generation of car fanatics, who might not be able to afford to restore

a car to show condition, but still want a good looking, cool car that will stand out from the crowd. Once looked upon as being in need of restoration, cars with original paint, rust and patina, especially within the global Volkswagen community, have gradually become far more popular than restored cars. When walking down a line of cars at a car show, it's easy to see why; these cars are rare, unspoiled survivors -- cars that tell a story of an interesting and varied past. The look of the Volkswagens being built in this style is so honest, unspoiled and characterful, that it has begun to inspire the media; even Hollywood movie stars and celebrities. Whilst this has undoubtedly resulted in increased car values, and turned a brand of cars that had always been a cheap, honest mode of transportation into something cool with a high price tag, the generation it initially inspired has grown with the hobby, and produced a micro-industry that still manages to embrace the 'Built not bought' ethos. This book, superbly illustrated with stunning colour photographs, takes an inside look at some of the key car builders, dealers, celebrities and hobbyists, as well as the different styles of build, meaning every single car has a style all its own. Foreword by Drew Pritchard of TV's 'Salvage Hunters' fame.
