When the Blue Shift Comes Robert Silverberg 2014 In the far future, Earth is about to be swallowed by a black hole in this sweeping SF epic from one of the masters of the genre. In a time so far from our own that we cannot comprehend it, humanity has spread amongst the stars and changed in more ways than we can count. But they have never forgotten their birthplace - Earth. But now Earth stands on the brink of catastrophe, at risk of being swallowed by a black hole. One man, Hanosz Prime, ruler of his world, is determined to visit Earth before it is destroyed. His abdication from his throne and his wanderlust are to prove the beginning of a much longer journey - one that will see him fall in love, meet the Oracles of Earth and perhaps, if he is very lucky, provide a means to save the cradle of humanity. Originally started by Robert Silverberg more than 20 years ago but never completed, Hanosz's story is taken up by Alvaro Zinos-Amaro. Silverberg hand-picked Zinos-Amaro to complete the book, and provided notes and guidance. The result is a remarkable collaboration between one of the masters of SF and one of the most exciting new voices in the genre.
Voices of Hope Carole B. Shmurak 1998 Fueled by media reports of gender bias in the schools, the debate over single sex education has been recently renewed. "Voices of Hope" asks for a reconsideration of the framing of that debate. For whom is single sex education better? For the attainment of which goals? What do girls gain by being schooled with male peers? What is lost? In this longitudinal study of more than fifty high school girls at four New England independent schools, Carole B. Shmurak follows their development from ninth grade through the first year of college. Case studies capture the girls' own voices as they describe their hopes for their futures and the events that subsequently affect those futures.

This book addresses the need for cross-cultural anthropological and history of religions analyses by offering in-depth case studies of the use and functions of wilderness spaces in diverse religions. It offers new theoretical perspectives on the study of religious spatialities, cosmologies, and ideas of wild nature that challenge previous dichotomizing approaches.

Goodreads reviewer, 5 stars Wanted: Company Daughters. Virtuous young ladies to become the brides of industrious settlers in a foreign land. The Company will pay the cost of the lady's dowry and travel. Returns not permitted, orphans preferred. Amsterdam, 1620. Jana Beil has learned that life rarely provides moments of joy. Having run away from a violent father, her days are spent searching for work in an effort to stay out of the city brothels, where desperate women trade their bodies for a mouthful of bread. But when Jana is hired as a servant for the wealthy and kind Master Reynst and his beautiful daughter Sontje, Jana's future begins to look brighter. Then Master Reynst loses his fortune on a bad investment, and everything changes. The house is sold to creditors, leaving Jana back on the street and Sontje without a future. With no other choice, Jana and Sontje are forced to sign with the East India Company as Company Daughters: sailing to a colonial Dutch outpost to become the brides of male settlers they know nothing about. With fear in their hearts, the girls begin their journey – but what awaits them on the other side of the world is nothing like what they've been promised… Based on true history, this is a gripping and unputdownable historical novel, perfect for fans of Girl with a Pearl Earring, The Miniaturist and The Indigo Girl. Embryo Culture Beth Kohl 2007-08-07 "Injections + Appointments + Egg Retrieval + Embryo Transfer = Resources (Energy x Time x Emotion)" That's the equation that was projected onto the screen when Beth Kohl and her husband first showed up at the in vitro fertilization (IVF) clinic. "Good evening," the program's psychologist told the gathered infertile couples. "Before you begin your treatment, you should know that this program is emotionally and psychologically stressful." And how. In this marvelously unconventional account of her struggles to bear children, Kohl leads the reader on an oh-so-up-close tour of fertilization in America, and the ways in which science and miracle, technology and faith, converge to create life in the twentyfirst century. Along the way, Kohl wrestles with a new world of medical ethics: Should she "selectively reduce" the number of embryos successfully implanted in the womb in order to prevent a potentially complicated pregnancy? How much genetic testing of fertilized eggs is too much? What is she supposed to do with the seven embryos left over from the IVF process? When Andrew Solomon wrote The Noonday Demon, he opened the world of depression to readers as no writer had done before. And when Stephen L. Carter wrote Reflections of an Affirmative Action Baby, many readers were forced to completely rethink race and prejudice. Kohl's spirited and rich exploration of "embryo culture" will completely revise how we see modern motherhood.
